

INNOVATIVE PRODUCT AWARDS

ABOUT THE PROGRAM

Recognizing the most innovative equipment materials, tools and services in the marketplace.

World of Concrete® (WOC) is excited to present the 2nd Annual **Innovative Product Awards**. This awards program allows manufacturers and service providers to showcase their most advanced solutions available today in the concrete and masonry industries.

The **Innovative Product Awards** program will be promoted pre-show, during the event, and post-show to the World of Concrete and ConstructionNext (formerly WOC360) audiences. Coverage will include entry list, voting and winners promotions in newsletters, on social media and via the website.

AWARDS DETAILS

There will be two award categories:

- **People's Choice:** One winner selected per category based on industry votes
- **Experts' Choice:** Winners will be selected by World of Concrete editors and industry experts

Industry professionals will vote in each category on products and services that are entered into the program, including the WOC attendees and our concrete and masonry audience database through digital promotions.

Winners will receive a high-res logo and a press release template for marketing efforts. Winners will also receive signage for their World of Concrete 2025 exhibit booth.
